SUMMER VACATION

Class-IV

HOLIDAY HOMEWORK

NAME ----------------------------
CLASS ----------------------------
ROLL NO. -----------------------

Dear Parents,

Finally, the much-awaited summer vacation is here! Holidays are special breaks from our everyday routine that we all eagerly anticipate. The hot and windy days of April and May have arrived, bringing with them a long break that offers a perfect opportunity to relax and have fun.

This is a wonderful time to cherish the little joys with your child. It's important to limit screen time and monitor the channels they watch. Provide valuable guidance and spend quality time together. Make these holidays memorable by creating a nurturing and stimulating home environment filled with fun, excitement, and learning.

As parents, it's crucial to invest your time with your children now. Enjoy their childhood because in a few years they'll be all grown up and on their own! To make the most of these moments, here's a list of suggested activities you can enjoy with your children:

Suggested Activities that you can do with your ward:

•Share stories about your childhood and your family history.

•Take at least two meals together with your children. Teach them not to waste food and explain the importance of the hard work that goes into growing it.

•Allow them to help you in the kitchen or with other household chores. Children learn the dignity of labour from such activities.

•Encourage your children to read as many age-appropriate storybooks as possible.

•Keep their screen time limited. This includes TV, mobile phones, computers, and other electronic gadgets.

•Avoid giving junk food like chocolates, jellies, cakes, wafers, aerated drinks, and fried stuff. Cultivate healthy eating habits among your children.

Make the most of the summer break and enjoy this time with your children.
